

Some of our Best Friends could use a Friend

This year the WAA found homes for more than 120 dogs like Jonesy, at right. Our dogs are spayed/neutered, vaccinated and microchipped. Won't you help us find more forever homes?

Please, Won't You **Donate**

They steal our hearts and we're much better for it. Dogs like Sweet Pea, the friendly little pup born with a bum front leg and a lust for life. A man in Boston saw her on our Web site, and now Sweet Pea is a Red Sox fan. ... There was Kerri, a shy but oh-so-sweet pitbull mix who was found in a culvert off Highway 99 in Stockton, having just given birth to puppies no one could find. We think we found Kerri the perfect home. ... And Netta, found cowering under a flatbed trailer in Gustine. ... And Rain, who went from living in a shelter to living on a houseboat, and loving it!

We take in strays brought to us by Good Samaritans. Dogs from families who lose their homes. Dogs from the county shelter and other rescue groups, who like us may run out of room but will never run out of compassion. Best Friends Pet Resort in Patterson

Netta

Samantha

houses the dogs until they are placed in forever homes.

We partner with special needs students and older residents. Our reward? The day almost always

George

ends with smiles all around.

We treasure those smiles, like when a family realized we had their long-lost dog. A volunteer said of the reunion, "There were tears of joy and Daisy jumped up to greet each one with kisses."

That's how a family can affect a dog. That's how a dog can affect a family.

We are a 501(c)(3) nonprofit. Every dollar of your tax-deductible gift will benefit the people and animals of our community.
